The new, economical FireDrop flexible armover from Metraflex

The UL listed FireDrop flexible armover for fire sprinkler applications makes installation fast, uniform and profitable. Its fully adjustable flexible armover design makes installation easy, and simplifies retrofits. Rated to 200 psi, the FireDrop flexible hose comes in a variety of lengths.

The FireDrop for the most flexible installation

The centering bracket makes it easy to position the reducer with a sprinkler head in place, adjust left to right, and move the sprinkler head up or down. The fully adjustable T-bar brackets let you move the entire assembly back and forth to get the perfect installation every time.

Perfect center of tile installations, fast

The FireDrop flexible armover lets you install the sprinkler head of your choice. Installations are fast and you consistently place center-of-tile.

Contact Metraflex or your nearest distributor for details.

Flexible drop sizes

Available Lengths: 28-inch, 40-inch, 48-inch, 59-inch, 71-inch

Reducers: 1/2-inch and 3/4-inch

Technical Data
